

# SPARKS BRISTOL

KEY STAGE 2 & 3 SDG EDUCATION WORKSHOPS  
LED BY GLOBAL GOALS CENTRE

Opening in May 2023, Sparks Bristol will host a range of engaging school workshops centred around the UN Sustainable Development Goals.

Led by education charity, Global Goals Centre, our workshops will support students to develop their analytical skills, creativity and knowledge in a unique learning environment in the heart of Bristol.

They will learn about some of the world's most pressing environmental and social issues as they travel through our immersive hub of sustainability, arts and education.

# FIELD TO FASHION

## WHAT IMPACT DO OUR CLOTHES HAVE ON THE PLANET AND THE PEOPLE THAT MAKE THEM?

Explore the production of your clothes by following the journey of cotton, from plant to t-shirt. Learn all about how your clothes are made, from water systems and factories to transportation and everything inbetween!

Discover the impacts that the fashion industry has on both people and the planet. Then conclude your session by considering creative and hands-on ways that your fashion choices can help to make a real difference!

### Curriculum links:

- Geography – trade links, economic activity, distribution of natural resources, biodiversity, human impact, climate change, sustainability and biomes
- Science – plants, pollution, properties of materials and climate change
- PSHE/Citizenship – roles of a citizen, ethics, morals, social and environmental justice and community improvement
- Art and Design – textiles

**\*FIRST 8 WORKSHOPS ON THIS THEME OFFERED FREE – BOOK NOW!**

# SEEDS OF CHANGE

## BIODIVERSITY AND YOU: WHAT LINKS THE THINGS WE USE WITH OUR NATURAL ENVIRONMENT?

Tropical palm oil is used in food, fuels, cleaning products and cosmetics, but it's not always produced with biodiversity in mind. Through this workshop explore who is leading the way in sustainable palm oil production, how they are doing it and why it's so important.

Shifting from global to local biodiversity, conclude this workshop by learning how to be a 'Seed for Change', implementing simple and practical solutions to restore and improve biodiversity in your local area.

### Curriculum links:

- Geography – contextual knowledge of local and global places, biodiversity, biomes, vegetation belts, trade, human impact, rainforests, deforestation, change over time, sustainability, climate change and weather
- Science – plants, pollution, properties of materials and climate change
- PSHE/Citizenship – roles of a citizen, ethics, morals, social and environmental justice and community improvement

For booking details and prices, please see the back of this booklet.

# 80 WAYS AROUND THE WORLD

## HOW CAN WE TRAVEL IN WAYS THAT ARE BETTER FOR PEOPLE AND THE PLANET?

This is travel but not as you know it! Start by exploring how the humble rubber plant has dramatically changed the way we travel. Then learn all about the history of different modes of transport from cars and buses to planes and trains – and everything else inbetween!

Conclude your travel expedition by rethinking our transport systems in innovative ways that can benefit both people and the planet.

### Curriculum links:

- Geography – transport, biodiversity, human impact, pollution, cities and planning
- Science – the human body, heart, properties of materials, plants and climate change
- History – chronology, technology, cause and consequence, making connections, analysing trends, framing historically valid questions and changes in Britain and beyond
- PSHE/Citizenship – roles of a citizen, ethics, morals, social and environmental justice and community improvement

For booking details and prices, please see the back of this booklet.

# LET'S EAT

## WHAT IMPACT DO OUR FOOD CHOICES HAVE ON THE NATURAL ENVIRONMENT AND PEOPLE?

Join us on an explorative workshop following the journey of your food, starting with foraging in our Sparks garden and ending in our food department.

Complete your visit with an engaging and practical activity all about how people can make informed choices about their food to reduce the impact on the planet and help people to save money.

### Curriculum links:

- Geography – contextual knowledge of local and global places, biodiversity, biomes, vegetation belts, trade, human impact, rainforests, deforestation, sustainability and climate change
- Science – plants, pollution, properties of materials and climate change
- PSHE/Citizenship – roles of a citizen, ethics, morals, social and environmental justice and community improvement

For booking details and prices, please see the back of this booklet.

# MOVEMENT & MIGRATION

## HOW IS MIGRATION PART OF OUR LIVES AND WHAT CAN WE LEARN FROM PEOPLE WHO HAVE MOVED ACROSS BORDERS?

Through this engaging workshop, explore what 'home' means to you as you travel through our nature, fashion and food departments.

Visit our Travel Agency to reflect on why and how people move across borders and consider the benefits and challenges of migration.

By listening to inspiring stories from refugees and migrants that have found refuge in creative practices, students will be supported to develop empathy and a deeper understanding of the role that arts can play in wellbeing.

### Curriculum links:

- Geography – contextual knowledge of local and global places, human impact, sustainability and climate change
- PSHE/Citizenship – roles of a citizen, ethics, morals, social and environmental justice and community improvement

For details and prices, please see the back of this booklet.
